MEMO TO: FILE

RE: CHEMICAL RECOVERY

CC: Richard J. Bergman, Safety-Service Director  
Lonny G. Shippy, City Engineer  
Charles B. Coen, Supt. Waste Water Pollution Control Plant  
Ernest G. Bartha, City Chemist & Health Commissioner  
Archie Evans, Supc. Building Department

FROM: Ernest G. Bartha, Health Commissioner & City Chemist

SUBJECT: Tank farm at present site.

PRESENT: Jim Freeman, Chemical Recovery  
Ernest Bartha, Health Commissioner & City Chemist  
Vince Howard, Elyria Fire Prevention Bureau Inspector  
Jack Graves, State Fire Marshall Inspector  
Ken Harsh, Asst. Chief, Columbus Office of the OEPA  
Russ Garrettson, Asst. Supt. Building Dept.  
Richard Williamson, Plumbing Inspector  
Greg Worcester, Asst. City Chemist

DISCUSSION:

The meeting commenced at 9:20 A.M.

- A. Inspector Graves informed Mr. Freeman an extension of the State Fire Marshall's order could not be granted. The State Fire Marshall's Office will possibly initiate court action.
- B. Chemical Recovery has removed twenty-eight truck loads of barrels from their property.
- C. Chemical Recovery processes approximately 250,000 gallons of product per month. The Company sends approximately 10 loads of sludge a month to Ross & Sons. Approximately 170,000 to 200,000 gallons of material is brought in per month.
- D. Chemical Recovery may install a tank farm at their Elyria site. Ten or twelve tanks (10,000 gallons each) may be involved. Mr. Freeman was informed of the City and State departments that would require 2 sets of plans of the project for approval.
- E. The Company is having legal action filed against them in Michigan for pollution violations.
- F. Messers. Bartha, Graves, Howard and Worcester inspected Chemical Recovery's operations.

The meeting adjourned at 10:45 A.M.
